Engineering – The Future of Medicine.

A pillar of progress in health research, medical engineering is the field that develops innovative technologies to improve the quality of life and expand access to advanced medical care worldwide.

Technology. Humanity. Vision.

POLITEHNICA Bucharest is launching the first edition of a revolutionary event dedicated to medical engineering, highlighting all the opportunities it brings for the advancement of science and the benefit of humanity: **MedFEST**.

Together, we redefine the future of health.

MedFEST is the meeting place for industry professionals and also a space where future specialists will understand how they can develop and what the career opportunities of the future are.

The academic environment

Renowned professors and researchers in the field will present the most spectacular discoveries and innovations.

The economic environment

Advanced bionic prosthetics, cutting-edge exoskeletons, high-precision diagnostic devices—these are just a few revolutionary solutions presented by the companies attending the event.

Students

Thousands of students from across the country will learn about this rapidly growing field as well as the prospects of a career in it.

Students

Thousands of students will discover the most interesting fields of specialization at the master's and doctoral levels, as well as the career opportunities offered by the participating companies.

The general public

The general public will have the opportunity to explore cutting-edge medical technologies, from innovative exoskeletons that support mobility to advanced diagnostic and treatment equipment. Interactive demonstrations and engaging presentations will illustrate the revolutionary impact of medical engineering on health and quality of life.

The MedFEST Experience.

- Thematic conferences
- Activities for students and pupils
- Interactive technology exhibitions
- Workshops and company presentations

Why POLITEHNICA?

The academic space suitable for presenting solutions, technologies, and services to a large audience.

Supporting your company's brand awareness by associating with a prestigious institution that promotes science, education, and innovation in technology.

Connecting the largest community of engineers in Romania with industry leaders.

What do we offer you?

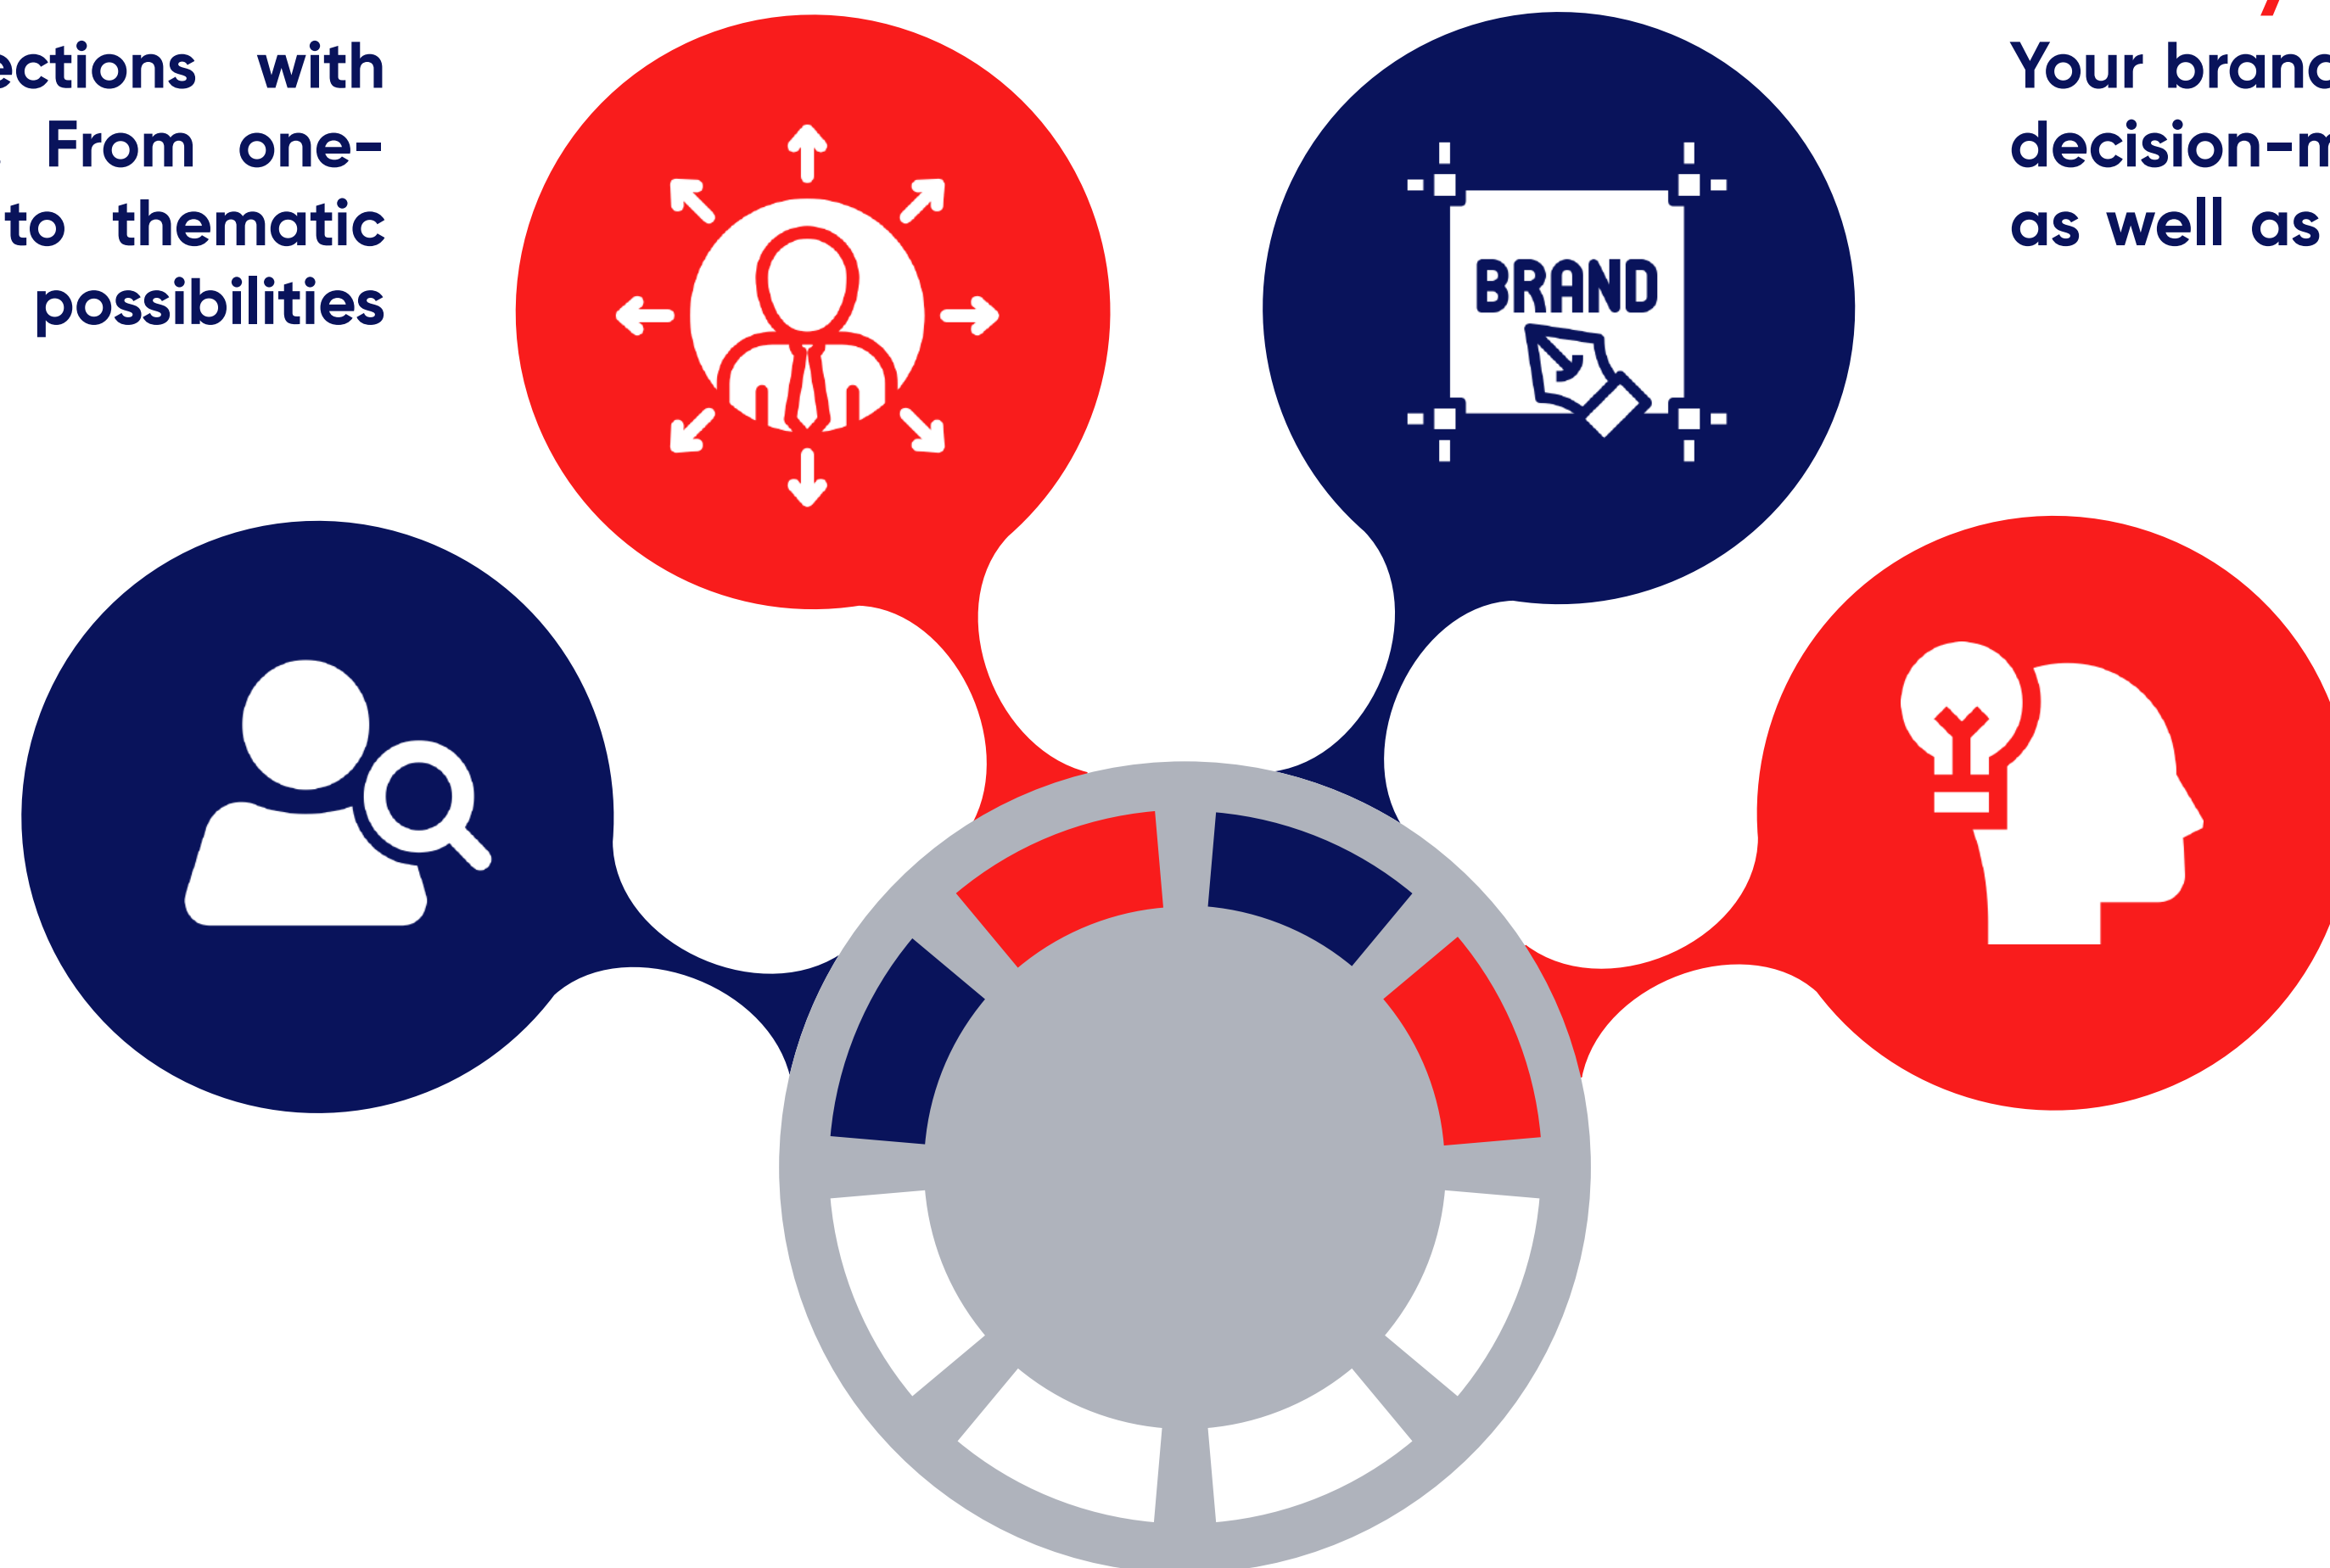

Networking opportunities

Sustainable connections with potential partners. From one-on-one meetings to thematic round tables, the possibilities are endless.

Talent recruitment

POLITEHNICA Bucharest is the most important source of talent in engineering.

Visibility and branding

Your brand needs to be visible to decision-makers in the industry as well as to the general public.

Thought leadership

Participation in conferences, panels, or debates to position yourself as a leader in the industry.

Promotion and support for participating companies.

Our team is committed to providing you with an exceptional experience at MedFEST.

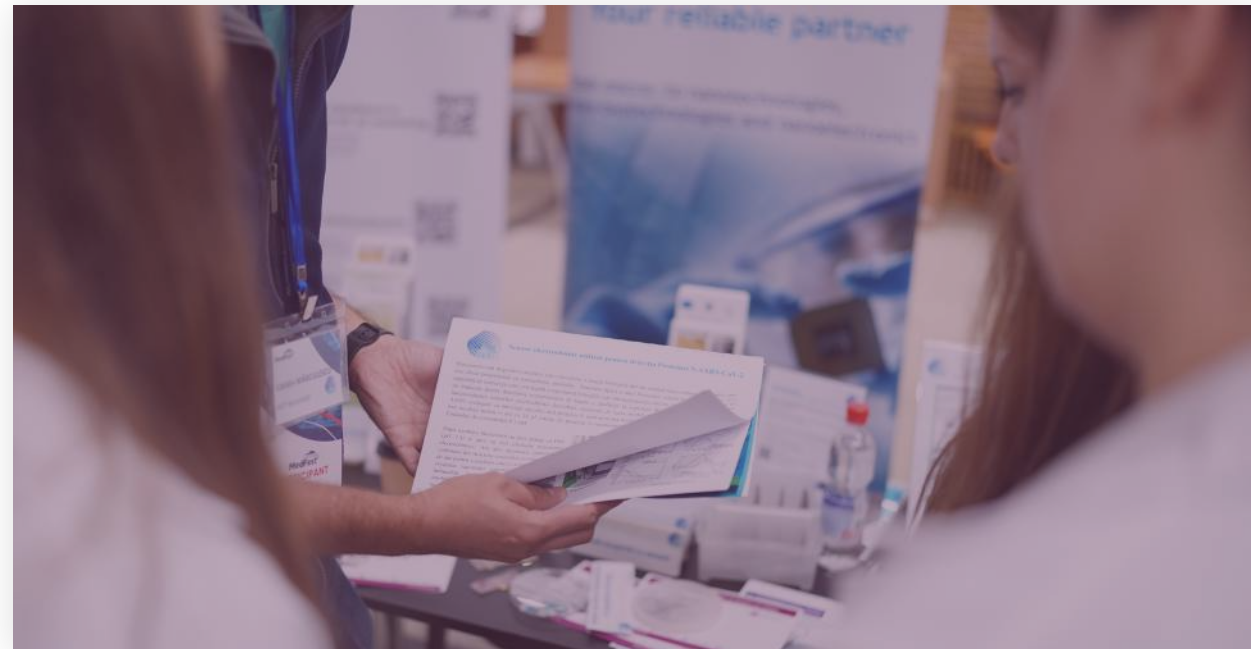

Customized support.

A dedicated team will be at your disposal throughout the event to provide you with all the necessary logistical support.

Guaranteed access.

During the event, we ensure vehicle access, access to utilities, wireless Internet, as well as all conditions tailored to your company's needs.

Promotion.

Your company's logo will be displayed on the event website, on promotional materials, and on dedicated social media platforms.

Event promotion.

Media partnerships.
Media appearances.
Euronews broadcasts.

EURONEWS ROMÂNIA.

Launched in 2022 in our country, the Euronews Romania TV channel offers a distinct perspective on news, balanced and grounded in European reality.

The National University of Science and Technology POLITEHNICA Bucharest, through Euronews Romania, provides extensive media exposure at both national and international levels. At our events, partner companies benefit from recognition in front of the general public as promoters of innovation and industry leaders.
